Art Unit:

DETAILED ACTION

Drawings

1. Since allowable subject matter has been indicated, applicant is encouraged to submit formal drawings in response to this Office action. The early submission of formal drawings will permit the Office to review the drawings for acceptability and to resolve any informalities remaining therein before the application is passed to issue. This will avoid possible delays in the issue process.

Claim Objections

2. Claims 7, 12, 13, 32, 33 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 7 depends from claim 5. In claim 5 the metal may only be Fe, thus the metals of claim 7 do not further limit the composition. In claims 12 and 13 as well as 32 and 33 the M variable is Nb, however claims 7 and 27 require that M is selected from a first row transition metal- Nb is not a first row transition metal.

Art Unit:

Allowable Subject Matter

3. Claims 1-37 are allowed over the prior art. However, claims 7, 12, 13 and 32-33 require proper amending to overcome the objections above.

4. The following is a statement of reasons for the indication of allowable subject matter: the claims require materials which are not disclosed in the prior art. The art shows different compounds as being rhombohedral NASICON, see for example Yoldas et al., 4,526,844 and CA115:238022.
